DIVISIONS IN HOUSE :*

The House divided upon the Questions set out as follow :

* The index to the Divisions only professes to point to matters in dispute upon which House actually divided. If it is desired to consult the Press for details, the day of Debate in House is shewn upon top of page of Journal, and the day following will, in almost all cases, give report of proceedings in the Press. The compilation is from 1867-8 to, and inclusive of 1900, and is intended to take the place of the *Debates Index*.

13. Presented to His Honour and assented to, 233.

Amendments proposed and negatived, to the Motion "That Mr. Speaker now leave the Chair" :—

1. 1889. That the present mode of administering the liquor license laws through the Board of Commissioners and Inspectors appointed by the Government of the day has resulted in a partizan administration of the law; has subjected those engaged in the liquor traffic to undue influence by and in the interest of the dominant party in this Province; has led in many cases to the tyrannical exercise of the powers of the Commissioners and Inspectors, and in others to the lax enforcement of the law and the condoning for partizan purposes of offences against its provisions; has unduly and unfairly interfered with the freedom of exercising their franchise by those engaged in the liquor traffic, and is otherwise mischievous in its purpose and operation; and while declaring its firm intention and purpose to be, not to relax or impair the efficiency of the other provisions of the law, and particularly those limiting the number of licenses to be granted—this House is of opinion that it is essential to the honest, non-partizan and faithful execution of the liquor license laws that

SUPPLY—Continued.

the present mode of appointing Boards of Commissioners should be abrogated, and provision be made for placing the appointment of the Commissioners in the hands of a body more removed from the influence of partizanship, and more directly responsible to, and under the control of the people, and Debate on adjourned. 114. Negative, 117.

That the English tongue is the language of the Province of Ontario, and no system of public instruction which does not insure that in every school aided by Provincial funds, or supported in whole or in part by local taxation, the teachers employed are capable of imparting instructions in the English tongue, and that every pupil is instructed in it, and which does not recognize and act upon the recognition that the English language is to be the language of such schools, and require that the books in use in them, except those employed in giving religious instruction, when and where such instruction is permitted by law, shall be approved of by the Department having the charge of Educational affairs, is satisfactory to this House or will meet with the approval of the people of this Province, 126.

2. 1890. That it appears by the papers brought down to this House that William H. Spencer was by Commission, under the Great Seal of the Province dated the thirteenth day of September, 1889, appointed to be Police Magistrate for the District of Parry Sound, and part of the District of Muskoka; that no Order in Council authorizing the issuing of the said Commission has been brought down, and the said Commission appears to have been issued without any Order in Council having been passed, but by an Order in Council approved the twenty-ninth day of November, 1889, it was assumed to attach to the said office a salary of \$400 *per annum* with an allowance of \$100 for travelling expenses, such salary and allowance to date from the twenty-sixth day of July previous; that in the opinion of this House the said appointment, having regard to the fact that in addition to a District Judge for the said two Districts, each of them is provided with a Stipendiary Magistrate, was wholly unnecessary and improper, and the attaching of a salary to the office was in direct violation of the Statute under which the appointment was made, which requires that appointees under it shall hold office without salary, unless where the Legislature or the County Council or other Municipal Council shall see fit to appropriate or pay a salary, and no such appropriation has been made or action taken, 102-3.

That the revenues of the Province being to a large extent derived from its timber, the supply of which is rapidly decreasing, the public interests demand that greater care should be taken for the preservation of it, and that it should be provided by law, that no additional territory shall be placed under license without the consent of the people's representatives in this House. 111.

That this House doth declare that the rights guaranteed by the *British North America Act* to the supporters of separate or dissentient schools are civil rights appertaining to them as citizens, and that the assumption that any church organization or body, or the bishops, priests or ministers thereof, are entitled to control the ratepayer in the exercise and enjoyment of such, his individual right, or to command obedience to its or their direction, by them or by the trustees of any such school, in the exercise by them of such rights, or the performance by him of the duties delegated to them by the State, is wholly unwarranted and dangerous to the State, and ought to be resisted; and this House doth further declare that it is within the constitutional right of the Legislature through the Department of Education to regulate such schools, and particularly to prescribe the text books to be used in them, and that the said Department ought, in the exercise of that right, to make provisions regulating the text books to be used in the said schools, except those employed in giving religious instruction when and where such instruction is permitted by law, 193.

That this House regrets, that especially in view of the withdrawal of the grant for holding the Provincial Exhibition, an additional grant has not been made to local agricultural societies. 193-4.

3. 1892. That a vote of \$15,500 for the erection of new buildings for the extension of industries at the Central Prison and of \$25,000 for machinery for the same purpose is being asked. That without any appropriation for the purposes aforesaid by this House, or other legal warrant, the Government has proceeded with the said works and thereby assumed to commit this House to such expenditure, and that such action is subversive of the principle of Parliamentary control of the public expenditure and in derogation of the rights and privileges of this House, 195.

That it appears by the Returns brought down to this House, that there has been expended in connection with the new Upper Canada College buildings and site (including \$14,649 52 for furniture) the sum of \$319,451.65. That the said sum is in excess by \$150,000, and upwards, of the amount authorized by the Legislature to be applied for those purposes, and that such additional expenditure, besides being unauthorized and illegal, was in violation of the terms of the compromise under which the College was continued and on the faith of which, this House assented to the erection of the new College buildings, 126.

4. 1893. That this House disapproves of the policy of disposing of the timber reserves of the Province without its approval being first obtained, and, is of opinion that the right to cut timber upon the present reserves should be sold under such conditions as will insure the manufacture of the lumber cut therefrom within the Province, and more effectually guard against the unnecessary cutting and destruction of small timber growing in such reserves, 148.

5. 1894. That in the opinion of this House, the present mode of appointing, and paying by fees, Registrars of Deeds and other County Officials is unsatisfactory, and should be changed, and that the appointment of all the said officials whose salary or remuneration is provided, in whole or mainly, by the localities for which they are appointed, should not be vested in the Executive of the Province, but in the people of the locality, either directly or through their Municipal bodies, 63. Negative, 70.

That in the opinion of this House, it is necessary to a free expression of the popular will that the use of the numbered ballot paper should be discontinued, and the ballot for the election of Members of the Legislative Assembly be made a secret ballot, 82.

SUPPLY—Continued.

That this House disapproves of the large expenditures which are made annually by the Crown Lands Department for Surveys, amounting to upwards of \$35,000 *per annum*, and of the sums paid by the Department to unnecessary Crown Lands Agents, and it regrets that the Executive and the Department persist in the practice of disposing of the Crown Timber reserves of the Province without consulting or obtaining the approval of the representatives of the people in this House, and wholly fail to take any adequate steps for preserving the standing timber, and especially the smaller trees, from unnecessary waste and destruction; and this House deprecates the improvidence which characterizes the management and disposal of the timber upon these reserves, which has destroyed, in many parts of the country, the saw milling industries which flourished there, and has transferred the business which they formerly carried on to the State of Michigan, and other States of the neighbouring Republic, and is fast depriving the Province of its most valuable asset and one, if adequately and intelligently cared for, safeguarded and managed, would continue to furnish a large revenue to the Province for years to come, but which, as now mismanaged, is rapidly disappearing, 131.

That it is essential to a non-partizan management of the Educational affairs of this Province, that the Department should not be under the control of a political head, and that the office of Minister of Education should be abolished, 148.

6. 1895. That in the opinion of this House, the present mode of paying Registrars of Deeds and other County Officials is unsatisfactory: that said officials should be paid by salary, such salaries to be commensurate with the duties performed, and the surplus fees, if any, should be funded for the benefit of the municipalities, 35-6.

That in the opinion of this House, the maintenance of Government House, and the establishment connected therewith, at the expense of the Province, should, after the expiration of five years from the appointment, or other earlier determination of the term of office of His Honour the present Lieutenant-Governor, be discontinued; declared out of order, 43.

That in the opinion of this House, it is advisable and would be in the interest of the Province that supplies, that may be required for the Public Institutions of the Province, should be supplied by public competition, in lieu of the course at present carried out, 43. Negated, 47.

That in the opinion of this House, the present mode of appointing Registrars of Deeds and other county officials, is unsatisfactory, and should be changed; and that the appointment of all the said officials, whose salary or remuneration is provided in whole, or mainly by the localities for which they are appointed, should not be vested in the Executive of the Province, but in the people of the locality through their municipal bodies, 60.

That it is desirable that Provincial expenditure for educational purposes should be so appropriated, and apportioned as to provide equitably, as far as may be, for the requirements of the whole people; that the interests of higher education are well served by the High Schools, Collegiate Institutes, Colleges and Universities of the Province; that the educational advantages at the disposal of the great mass of the people, through the medium of the Public Schools, are not in proportion to their just claims under an equitable distribution of school expenditure, having regard to the relative merits of primary and higher education, and particularly to the fact that ninety-five *per cent.* of the children of the Province receive all their education in the Public Schools, and that in the opinion of this House a scheme should be devised by which the sphere of the Public Schools may be widened and enlarged so as to afford to the children of the agricultural population further and increased opportunities of obtaining such higher education in the Public Schools as may be practicable there, 145.

7. 1896. That the present mode of administering the Liquor License Laws through the Boards of Commissioners and Inspectors, appointed by the Government of the day, has resulted in a partizan administration of the law; has subjected those engaged in the liquor traffic to undue influence by and in the interest of the dominant party in this Province; has lead, in many cases, to the tyrannical exercise of the powers of the Commissioners and Inspectors, and in others, to the lax enforcement of the law, and the condoning for partizan purposes of offences against its provisions; has unduly and unfairly interfered with the freedom of exercising their franchise by those engaged in the liquor traffic, and is otherwise mischievous in its purpose and operation; and while declaring its firm intention and purposes to be, not to relax or impair the efficiency of the law, and particularly the limiting the number of licenses to be granted, this House is of opinion that it is essential to the honest non-partizan and faithful execution of the liquor license laws that the present mode of appointing Boards of Commissioners should be abrogated, and that in future the Boards of Commissioners in Counties should consist of the County Judge, the Warden of the County, and one appointed by the Government; and in Cities and Towns, not connected with the County Municipality, the County Judge, Mayor, and one appointed by the Government, 78. Negated, 87.

That it is expedient that in the Public Accounts of the Province, the details of all expenditures shall be published in as full a manner as shewn in the Auditor General's Report of the Dominion of Canada, putting as far as practicable, all expenditures of the same nature together, and giving prices and quantities in all payments over \$5.00, and in the Colonization Roads expenditures, giving the names, time and amounts paid to all persons engaged in the works, 135.

That this House views with alarm the tendency of the Government to create new offices, and is of the opinion that the office of Provincial Highway Commissioner, with a salary of \$1,500, exclusive of expenses, is unnecessary, and places an additional and useless burden upon the Province, 185.

8. 1897. That this House regrets to observe the steady increase in Provincial Expenditure, and also regrets that the present value of the indebtedness for Annuities and Railway Certificates, does not appear in the statement of the liabilities of the Province over and above which a surplus is declared, 40-1.

That this House is of opinion that the interests of the University of Toronto, and the availability of it, for Educational purposes, will be best served by its complete separation from and independence of the Provincial Government, and by vesting its property, and the entire control and management of the institution in a proper representative and independent body, 154.

SUPPLY—Continued.

9. 1897-8. That this House is of the opinion that moneys voted for Colonization Roads, in Districts where Municipal Government exist, should, as far as practicable, and under such inspection as may be necessary to insure the application of such moneys to the purposes for which they are voted, be expended by the Municipal authorities, 76.

That this House is of opinion that the Tender System of purchasing supplies for the Public Institutions of the Province should be adopted, in lieu of the system at present carried on, 107.

That this House regrets that the present value of the Provincial Indebtedness for Annuities and Railway Certificates does not appear in the statement of the liabilities of the Province over and above which a surplus of assets is declared, and does not appear in the Public Accounts of the Province, 112.

That this House regrets the large and steady increase in the Ordinary Expenditure of the Province, greatly exceeding the increase in the revenue. And also regrets that the expenditure of the Province has not been kept within the revenue. And that the Province has to depend, to a very large extent, on Crown Lands receipts to meet the Ordinary Expenditure, 178.

That this House observes with anxiety the evidences of dissatisfaction in the public mind, with the working and result of the educational system of the Province, and is of opinion that a scheme should be devised by which the sphere of the Public School may be remodelled, and where necessary, widened and enlarged with the view of affording to those pupils, whose education begins and ends in such schools, such further and increased educational advantages as may be practicable. This House is also of opinion that, among other desirable changes, there should be created a consultative or advisory Council for the assistance of the Minister of Education, on which Council, should be represented, all the teaching bodies in the Province. And this House is also of opinion that, steps should be taken to reduce the price of school books, and thus lessen materially the burden now imposed upon and borne by the people of the Province, by reason of the large sums they are compelled to pay for such books, 179.

10. 1899. That this House strongly disapproves of the practice indulged in by Ministers of the Crown, of encouraging the Electors in constituencies to believe that they will receive material favours and advantages from the government, provided they return supporters of the government to this House, 283.

11. 1900. That in the opinion of this House, the evidence given at the trial of the West Elgin Petition on the 26th day of June, 1899, and the statement made by the Judges in their Report, dated 15th August, 1899, together with the fact that the said Judges ordered the costs of the Petitioners to be paid by Dugald Brown, the Returning Officer at said election and Donald Macnish, a candidate at said election, call for the dismissal by the Government of said Dugald Brown from his office of Sheriff of the County of Elgin, 64. Negatived, 70.

That the appointment of R. A. Grant, who had held professional relations with some of the men charged with the commission of offences in the West Elgin Election, to be one of the legal officers to assist in the execution of the Commission to examine into the conduct of the Returning Officer, Deputy Returning Officer and Poll Clerks at the West Elgin Election, deserves the strong condemnation of this House, 81-2.

That this House is of the opinion that the moneys voted for Colonization Roads in the Districts where Municipal Government exists, should as far as practicable, and under such inspection as may be necessary to insure the application of such moneys so voted, be expended by the municipal authorities, 110.

SURETIES :

Bill No. 130, introduced respecting, 1899, 99. Second reading and referred to the Legal Committee, 130. Reported, 229. House goes into Committee on, 271. Third reading, 283. R. A., 306. 62 Vic. c. 12.
